In the Department of Community Health and Family Medicine at the University of Florida College of Medicine, we continually seek to improve the health of our patients and community. To do this, we actively study, critically review and constantly evaluate our efforts. Our aim is to serve both our university and local communities to the best of our abilities.

As you will note in this annual report, members of our department are actively involved and productive in all areas of our mission: Patient Care, Education, and Research/Quality Improvement. We are especially proud of the numerous accomplishments of our faculty and staff during the past year.

As a proud and active member of the Gator Nation, our department serves as the interface between our community and an outstanding academic health center. I appreciate your interest in reading our annual report and your interest in the Department of Community Health and Family Medicine at the University of Florida.

We look forward to another exceptional year for our department and to continue serving our patients and learners.

Respectfully,

Peter J. Carek, MD, MS, CAQSM
Professor and Chairman

C. Sue and Louis C. Murray, M.D. Professor in Family Medicine
Our Mission:
To serve our patients and community, positively shaping the future of health care through outstanding teaching, discovery and innovation in family medicine.

Our Vision:
To be a nationally recognized model department of family medicine.

NEW FACULTY AND PROVIDERS AND RETIREES

NEW FACULTY AND PROVIDERS

IDEANNA ACOSTA, PA-C
PHYSICIAN ASSISTANT
UF HEALTH FAMILY MEDICINE - OLD TOWN

Ms. Ideanna Acosta graduated with her master of science in physician assistant studies in June 2016 from the University of Florida. During this time, she has worked with the Equal Access Clinic, a free, student-run health care clinic established by University of Florida College of Medicine. When she has time, she attends meetings for Let’s Talk About It, a north central Florida group that empowers HIV-positive women, to provide health care advice and counseling.

After graduating with her bachelor’s degree from UF in 2012, she spent a year and a half as a patient care assistant on the cardiac floor at University of Florida Health. She is a National Health Service Corp Scholarship recipient which is an award for students in the medical field who demonstrate an interest and commitment to serve as a primary care provider in underserved and rural areas. She was awarded the Orlando Magic Achiever Scholarship in May 2009 for outstanding achievement and dedication. She has been highly involved in volunteer work for many years and has a strong commitment to her community.

JASON KONOPACK, MD, MPH
ASSISTANT PROFESSOR AND ASSISTANT MEDICAL DIRECTOR
UF HEALTH FAMILY MEDICINE - OLD TOWN

Dr. Jason Konopack is board-certified in family medicine. He joined UF Health in July 2016 and practices at UF Health Family Medicine - Old Town. He attended the University of South Florida where he received his bachelor of science degree in microbiology and obtained his master’s degree in public health with a concentration on global health and communicable disease. Additionally, he received an Infection Control Certificate from the University of South Florida. He then attended the Florida State University College of Medicine where he earned his medical degree. Dr. Konopack completed a family medicine residency at University of Florida College of Medicine.

He has written articles for The American Journal of Infection Control and presented research at APIC Conferences. Dr. Konopack is highly involved in community activities and volunteers to provide medical care to underserved populations.

He has been recognized with the Outstanding Performance in Geriatrics Award from the Florida Geriatrics Society and the SHARP Award, in Recognition of Outstanding Research presented by the Chair of the Global Health Department at the USF College of Public Health. He has been recognized with the Outstanding Professionalism Award and the Outstanding Performance in Counseling Award, from the University of Florida Family Medicine Residency Program.

Dr. Konopack’s interests include public health and safety, improving the impact of and patient experiences in primary care, geriatrics, empowering patients to radically change their health outcomes with lifestyle improvements, and medical education.

ASIM MERCHANT, MD
ASSISTANT PROFESSOR AND ASSISTANT MEDICAL DIRECTOR
UF HEALTH FAMILY MEDICINE - HAILE PLANTATION

Dr. Asim Merchant is board-certified in family medicine and primary care sports medicine. He joined UF Health in August 2016 and practices at UF Health Family Medicine - Haile Plantation. Dr. Merchant received his bachelor of science degree from Southern Methodist University and his medical degree from St. Mathews University School of Medicine. He completed a family medicine residency at Rutgers University and a sports medicine fellowship at State University of New York in Buffalo.

He is passionate about sports medicine and medical treatment regarding sports injuries. Dr. Merchant has written articles for Clinical Journal of Sports Medicine, AMSSM and numerous presentations to different organizations. Dr. Merchant served as director of the Concussion Management Clinic for Riverhead High School developing and implementing a concussion management policy. He is also an active member of “Doctors of Tomorrow”, a group to mentor high school students who have a strong desire to become a physician. His areas of interest include resident education, sports medicine, concussion management and medical education.
# DANIELLE NELSON, MD, MPH
**ASSISTANT PROFESSOR AND ASSISTANT MEDICAL DIRECTOR**
**UF HEALTH FAMILY MEDICINE - MAIN**

Dr. Danielle Nelson joined UF Health in September 2016 and practices at UF Health Family Medicine - Main. In addition, Dr. Nelson works with the UF Health Family Medicine Residency Program. Dr. Nelson received her bachelor of science degree from the University of California, San Diego, and her medical degree as well and she received her master of public health degree from Tufts University School of Medicine in Boston.

Dr. Nelson served as medical director of the Valley Health Center, Milpitas in California as well as interim chair for the family medicine department of the Santa Clara Valley Medical Center (SCVMC). She was named the "Preceptor of the Year" in 2015 for her outstanding work at Stanford University Medical School Family Medicine core clerkship. She has been a lecturer for women's health and served on the curriculum committee for the Internal Medicine residency at SCVMC. She has authored/co-authored a perspective in the New England Journal of Medicine, a chapter in the Atlas of Pediatrics in the Tropics and Resource-limited Settings, and an eBook titled, "Cholera Outbreak Training and Shigellosis Program (COTS Program). A novel approach to preparing for outbreaks in emergency settings."

Dr. Nelson speaks French and Spanish. Her areas of interest include resident education, women’s health, chronic disease management, group visits, underserved medicine and medical education.

---

# GREG WESTWOOD, MD, PHD
**ASSISTANT PROFESSOR**
**UF HEALTH FAMILY MEDICINE - OLD TOWN**

Dr. Greg Westwood is board-certified in family medicine. He joined UF Health in September 2016 and practices at UF Health Family Medicine - Old Town. Dr. Westwood graduated from the University of Florida College of Medicine with his medical degree and completed his family medicine residency at UF College of Medicine.

Dr. Westwood chose to pursue family medicine because of the diversity of patients, pathologies and career opportunities found only in this specialty. He also has his PhD in microbiology and cell science from the University of Florida. He worked as a post-doctoral research fellow at Duke University Medical Center, Department of Pathology. He has several publications from this experience and his most recent one on the role of mast cells in inflammatory bowel disease and inflammation-associated Colorectal neoplasia.

---

# RETIREES

# BOYD A. KELLETT, MD, MBA, FAAFP
**ASSISTANT PROFESSOR EMERITUS**

Dr. Boyd A. Kellett retired from his academic position in July 2010 as Assistant Professor Emeritus for Community Health and Family Medicine. He served 21 years as a faculty member of the Student Health Care Center and Medical Director at Tacachale for the University of Florida. He came back in July 2012 to cover a shortage for the Student Health Care Center for the occupational division for the past five years and began his second retirement July 1, 2017.
CLINICAL SERVICES

FAMILY MEDICINE CLINIC SITES

University of Florida Health Physicians, or UFHP, is responsible for managing the clinical component of the University of Florida College of Medicine, or COM, faculty practice plan. UF Health Family Medicine includes nine clinical locations throughout the Gainesville area. Each clinic has a medical director and an ACU manager who oversees the day-to-day operations of the clinic. In total, we have around 60 physicians throughout each of our nine clinics. We have a large, unique and diverse patient population that we are able to serve. This year, CHFM providers had over 192,794 patient encounters.
PATIENT CARE

1. UF Health Family Medicine - Eastside

UF Health Family Medicine - Eastside is a full-service health care resource for children, adults, and families. Providers at Eastside offer patients of all ages a wide range of services including physical check-ups and immunizations, health screenings, treatment for various ailments, health care advice and education, pharmacy assistance programs and linkage with community resources. The staff includes four physicians, one pediatrician, one pediatric nurse practitioner, one pharmacist, one social work associate and one RN Health Coach.

Medical director: Elvira Mercado, MD
Assistant medical director: Kim Nguyen, MD
Physicians and providers: Peter Carek, MD, MS, CAQSM; Lisa Chacko, MD, MPH; Martha Green, MD; Elvira Mercado, MD; Kim Nguyen, MD; Paul Psychas, MD; Jason Powell, PharmD; Karen Theoktisto, ARNP
Nursing staff: Reathea Felder, RN; Yata Armstrong, LPN; Christy Brannin, LPN; Cherie Kirkland, LPN; Rick Sterling, LPN; Gerard Williams, LPN
Clinical staff: Nancy Asbell, Office Representative; Caleb Buzbee, Business Assistant; Tameka Davis, Financial Counselor; Senetta Hunt, Financial Counselor; John Roque, Social Worker; Michelle Sterling, Financial Representative
ACU manager: Tawana Brown
2. **UF Health Family Medicine - Haile Plantation**

UF Health Family Medicine - Haile Plantation provides a wide variety of services, including, but not limited to immunizations, treatment of chronic and acute illnesses, minor surgery, gynecology, dermatology, health maintenance, cryosurgery and skin care. As Haile continues to grow to meet the needs of the community, UF Health Physicians opened the Haile Plantation clinic in July 2015. The new clinic features 24 exam rooms, nearly double the number of exam rooms totaling 10,987 square-feet of building space and added physician in September 2016 to serve patients better.

**Medical director:** Michael McTiernan, MD  
**Assistant medical director:** Daniel Rubin, MD  
**Physicians and providers:** Carmen Bray, MD; Philippa Bright, MD; Lucia Hansen, MD; Volha Ihnatsenka, MD; Mitul Jones, MD; Michael McTiernan, MD; Asim Merchant, MD; Daniel Rubin, MD; Danielle Chaplin, ARNP; Samantha Holtzman, PA-C  
**Nursing staff:** Yolanda Anderson, LPN; Rhonda Bosch, LPN; Michelle Daniels, LPN; Katie Goldammer, LPN; Anne Holsey, LPN; Ashley Land, LPN; Rochelle Livoni, LPN; Heather Misinec, Lead LPN; Jessica Robinson, LPN  
**Clinical staff:** Lisa Bradley, Financial Counselor; Heather Davis, Business Assistant; Olga Labrador, Financial Counselor; Erin Mullikin, Financial Specialist; Alessandra Tousignant, Financial Counselor; Troy Venters, Financial Specialist; Katrina Williams, Site Supervisor  
**ACU manager:** Kimberly Mann
3. **UF Health Family Medicine - Hampton Oaks**

UF Health Family Medicine - Hampton Oaks offers comprehensive care for patients ranging from children to geriatrics. The medical staff includes seven physicians who are all board certified and one clinical psychologist. Besides routine and preventive health care, our physicians treat many conditions including diabetes mellitus, hypertension, hypercholesterolemia, coronary artery disease, osteoarthritis, osteoporosis, thyroid problems, menopausal issues, asthma, other pulmonary issues, allergies and more. Our physicians also have various areas of special interests, such as women’s and men’s health, adolescent health, complementary/alternative medical treatments, acupuncture, minor procedures, chronic pain conditions and more, making it a very diverse and dynamic team. On May 8, 2017, UF Health officials broke ground for a multispecialty medical building behind the current Springhill facility off Northwest 39th Avenue, which will house the new location of the Hampton Oaks clinic in the fall of 2018. The portion of the new facility that the Hampton Oaks clinic will occupy is 11,000 square feet, which provides room to add additional providers to serve patients better.

**Medical director:** Alpa Desai, DO  
**Assistant medical director:** Helen Hagan, MD  
**Physicians and providers:** Ku-Lang Chang, MD; Helen Hagan, MD; Maria Elisa Lupi, MD; Frank Orlando, MD; Siegfried Schmidt, MD, PhD; Kristy Breuhl Smith, MD; Petra Townsend, MD; Charles Byrd, PhD  
**Nursing staff:** Sonji Bennett, LPN; Reva High, LPN; Lila Greenfield, LPN; Jody Petroski, LPN; Tamara Jones, LPN; Donna Beverly, LPN  
**Office staff:** Audrey Bracey, Referrals; Genice Byrd, Financial Counselor; Charisse Jackson, Check In; Alex Labossiere, Check In; Shayne Padgett, Lead Financial Counselor; Brenda Warmack, Office Representative  
**ACU manager:** Ashley Pankey
4. UF Health Family Medicine - Jonesville

UF Health Family Medicine – Jonesville offers comprehensive care to patients ages five and older. The medical staff includes three board-certified family medicine physicians. The physicians at Jonesville provide a wide variety of services, including but not limited to, treatment of acute and chronic illnesses, minor surgery, gynecology, dermatology, health maintenance, cryosurgery, colposcopy, skin care and immunizations. They provide preventative health care including gynecological examinations, sports physicals and routine adult and child physical examinations. Our providers also treat many conditions including diabetes mellitus, hypertension, hyperlipidemia, coronary artery disease, osteoarthritis, thyroid issues, asthma, allergies and more. The physicians at Jonesville are happy to serve not only the Gainesville and Jonesville communities but also the surrounding areas such as Newberry, Archer, Williston, Bronson, High Springs, Fort White, Alachua, Lake City and Ocala.

Medical director: Alpa Desai, DO
Assistant medical director: Run Gan, MD
Physicians and providers: Alpa Desai, DO; Run Gan, MD; Althea Tyndall-Smith, MD, MS
Nursing staff: Latasha Forrest-Wilcox, LPN; Melanie McCray, LPN; Elizabeth “Victoria” Paras, LPN; Lacondrea Bethea, CMA
Office staff: Darrell Jackson, Lead Financial Counselor; Heather Thrift, Financial Counselor, Jennifer Clem, Financial Specialist
ACU manager: Amanda Brown
5. UF Health Family Medicine - Main

UF Health Family Medicine – Main’s residency program was instituted in 1973, and over 295 residents have graduated and attained board certification since the program’s inception. Residents are trained to deliver competent and compassionate health care services to all segments of the community, from birth to elder care, in both inpatient and outpatient settings.

**Medical director:** John Malaty, MD

**Assistant medical director:** Danielle Nelson, MD, MPH

**Residency program director:** Karen Hall, MD

**Associate Program director:** Tanya Anim, MD

**Assistant Program director:** Maribeth Porter, MD, MS

**Physicians and providers:** Tanya Anim, MD; Lisa Chacko, MD, MPH; David Feller, MD; Karen Hall, MD; John Malaty, MD; Charlie Michaudet, MD, CAQSM; Danielle Nelson, MD, MPH; Maribeth Porter, MD, MS; David Quillen, MD; George Samraj, MD; Michael Ware, MD; John Gums, PharmD; Silvia Hunkins, ARNP; Lesa Wright, ARNP; Laura Perry, PhD, LMHC; Jenny Land, PhD; Tom Ward, LCSW

**Nursing staff:** Mae Borders, LPN; Tonia Garver, LPN; Cavonda Jenkins, LPN; Angela McClellan, LPN; Brenda McCullough, LPN Arifah Reese, LPN; Cassandra Davis, CMA; Maelys Galvez, CMA; Amanda Lairson, CMA; Tammy Morris, CMA; Jon Bryan, Medical Tech; Rebecca Johnson, Medical Tech; Dyan Krahn, Radiology Tech/CMA

**Office staff:** Cindy Schmeck, Administrative Assistant; Janet Bianchi, Office Representative; Debra Brown, Financial Counselor; Vicki Laughlin, Financial Counselor; Kari Wagy, Financial Counselor; Jonathan Nash, Financial Rep.

**ACU manager:** Mindy Halbrook
6. UF Health Family Medicine - Old Town

UF Health Family Medicine – Old Town is located in Old Town, Florida, which is approximately 45 miles west of Gainesville near the Suwannee River. Physicians at this site provide primary care services to a rural community by offering comprehensive adult and pediatric medical care, treatment for chronic and acute illnesses, minor surgery, cryosurgery, skin care, geriatric care, pharmacy consultations, diabetic education and Coumadin clinic. Old Town provides the high level of care that our rural patients recognize and appreciate while making them feel like family. As an added service for our patients at Old Town, cardiologists from UF Health travel to see patients with more complex cardiovascular disease on a monthly basis.

Medical director: Grant Harrell, MD
Assistant medical director: Jason Konopack, MD, MPH
Physicians and providers: Shenary Cotter, MD; Grant Harrell, MD; Robert Hatch, MD, MPH; Jason Konopack, MD, MPH; Richard Rathe, MD; Tan Tran, MD; Greg Westwood, MD, PhD; Karen Sando, PharmD; Ideanna Acosta, PA-C; Gary Rexroat, PA-C
Nursing staff: Angie White, Lead CMA; Cassie Cabrera, CMA; Muriel Flanders, CMA; Megan Hendricks, CMA; Alisha Huggins, CMA; Ellie Jones, CMA; Erica Sheppard, CMA
Office staff: Briana Buzbee, Financial Counselor; Marie Cappio, Financial Specialist; Dawn Devries, Financial Specialist; Dara Fowler, Financial Specialist
ACU manager: Gredel Buzbee
7. **UF Health Primary Care After Hours**

Serving as a joint venture between the Department of Community Health and Family Medicine and the Department of Internal Medicine, UF Health Primary Care After Hours provides an opportunity returning patients from Primary Care and Internal Medicine to access primary care providers after regular business hours. We currently see patients from 6 pm to 9 pm, Monday through Friday, and 10 am to 1 pm on Saturdays. Clinic visits have consistently increased and had a total of 2,277 visits for the year.

*Medical director:* Robert Hatch, MD  
*Physicians and providers:* The UF Health Primary Care After Hours clinic is staffed by physicians from the Department of Community Health and Family Medicine and the Department of Medicine, on a rotating basis.  
*Nursing staff:* Cathy Hewitt, LPN; Cavonda Jenkins, LPN; staffed by additional nurses from the Department of Community Health and Family Medicine as needed.  
*Office staff:* Staffed by the Orthopedic Department  
*ACU manager:* Katrina Williams
8. **UF Student Health Care Center**

The UF Student Health Care Center has been providing care to students since the institution’s inception in 1906. The mission of SHCC is to help all students achieve maximum physical and emotional health so they may fully participate in the numerous educational and personal growth opportunities. We strive to become the preferred providers for all students. Some services, programs, and clinics include nutritional counseling, primary care, women’s health, psychiatry services, sexual health services and sports medicine. Through a partnership with the Alachua County Health Department, free STI screenings are offered. Student Health also assists the College of Medicine with its role as primary in influenza vaccination of faculty, staff, and students. Numerous outreach and campus-coordinated programs continue and the most recent plans added are comprehensive weight management for patients with BMI > 30 and transgender medical services.

**Director:** Guy Nicolette, MD, CAQSM

**Physicians and providers:** Ronald Berry, MD; Jay Clugston, MD, CAQSM; Cynthia Eddleton, MD; Katie Edenfield, MD, CAQSM; Michele Emery, MD; Jocelyn Gravlee, MD, CAQSM; Ann Grooms, MD; Boyd Kellett, MD; Eileen Lauzardo, MD; Charlie Michaudet, MD, CAQSM; Guy Nicolette, MD, CAQSM; Cheree Padilla, MD, CAQSM; Dodi Alexander, ARNP; Ramona Brandon, ARNP; Jennifer Donelan, ARNP; Kirsty Freshwater, ARNP; Sheryl Heinicka, ARNP; Abigail Gabriel, ARNP; Nicole Germain, ARNP; Sue Greishaw, ARNP; Stacey Jackson, ARNP; Susan Nesbit, ARNP; Susan Ryals, ARNP; Ann Zaia, ARNP; Malcolm Hickox, PA-C; Cheri Sellers, PA-C; Melissa Turley, PA-C; Janis Mena, RD

**Nursing staff:** Karen Brennan, RN; Ari Chioda, RN; Missy Dolan, RN; Debra Farrar, RN; Karen Fournier, RN; Jarica Herring, RN; Lilly Hummer, RN; Monifa Madison, RN; Gwen Major, RN; Bruce Major, RN; Ken Mize, RN; Kelly Mitchell, RN; Melody Read, RN; Stacy Rider, RN; Diane Webb, RN; Bonnie Reynolds, RN; Karen Williams, RN

**Clinical operations:** Toni Ratliff, RN
9. **UF Health Wound Care and Hyperbaric Center**

The UF Health Wound Care and Hyperbaric Center opened in February 2014 as a hospital outpatient department specializing in wound healing and hyperbaric oxygen therapy. Our modern facility includes four outpatient wound treatment rooms and a large area housing three monoplace hyperbaric oxygen chambers. We use a comprehensive, multi-disciplinary, team-based treatment approach. Most of the wounds treated are chronic and include diabetic ulcers of the lower extremity, venous leg ulcers, pressure ulcers, arterial ulcers, non-healing surgical injuries and other wounds. Wound care services include ankle-brachial indices, tissue oxygen testing, debridement, biopsies, wound cultures, dressings to promote moist wound healing, compression wraps, negative pressure wound therapy, total contact casting, advanced tissue therapies and Xpansion skin grafting. In the outpatient setting, hyperbaric oxygen therapy is most commonly used to treat delayed radiation injury; diabetic foot ulcers with osteomyelitis or gangrene; chronic, refractory osteomyelitis; compromised skin grafts and flaps; and necrotizing soft tissue infections. Our team includes three physicians, four registered nurses and registered respiratory therapists/hyperbaric oxygen staff. We use a case management model and closely monitor patient outcomes. Based on outcomes measures, our center achieved Center of Distinction designation for 2016 by our corporate partner, Healogsics, Inc.

**Medical director:** Susan Millan, MD, FAAFP, FAPWH  
**Physicians and providers:** Run Gan, MD, ABFM; Susan Millan, MD, AAFP, FAPWH; Petra Townsend, MD, ABFM, FAPWH  
**Nursing staff:** Tracy Bair RN; Julie Smith, RN; Michelle Tharp, RN; Michelle Whitten, RN  
**Hyperbaric technicians:** Catherine Hontz-Geisinger, RRT, CHT, BHCM; Malcom Lowry, RRT; James Swartz, RRT  
**Office staff:** Stephanie Dorsey, FOC  
**Clinical manager:** Julie Smith, RN PCCN  
**AVP:** Jessie Bell
Community Health and Family Medicine plays a significant role in medical student teaching and maintains a key leadership role in educational policy within the University of Florida College of Medicine. We routinely have one to two medical students rotating throughout each of the clinics every semester. UF Health Family Medicine - Main has medical students and about 30 residents every year.

EDUCATIONAL LEADERSHIP WITHIN THE UNIVERSITY OF FLORIDA COLLEGE OF MEDICINE

The department is proud to have several educational leaders. Daniel Rubin, MD, took over the existing first-year preceptorship program in 2012 and expanded it to include additional preceptorships at the end of the first year and in the middle of the second year. Larry Rooks, MD, former chair of the Curriculum Committee, created both the preceptorship course for first year students and the Staying Whole in Medicine program for all students. Robert Hatch, MD, MPH, is chair of the Clerkship Directors Committee and former chair of the Admissions Committee. Jocelyn Gravlee, MD, led the fourth-year Common and Advanced Procedures course, one of the most popular electives at the University of Florida. Richard Rathe, MD, served as assistant dean for Informatics. David Feller, MD, was selected as the first recipient of the Scheveling Professorship of Integrative Medicine in recognition of his expertise and teaching in this area. These physicians and several others from our department have been heavily involved in the college’s efforts to renovate the medical school curriculum.

TEACHING AWARDS

UF College of Medicine Exemplary Teacher Awards, 2016-17:
David Feller, MD
Jocelyn Gravlee, MD, CAQSM
Karen Hall, MD
Lucia Hansen, MD
Robert Hatch, MD, MPH
Jason Konopack, MD, MPH
Charlie Michaudet, MD, CAQSM
Guy Nicolette, MD, CAQSM
Daniel Rubin, MD

REQUIRED FIRST, SECOND AND THIRD-YEAR COURSES WHERE CHFM FACULTY TEACH

Family Medicine and Ambulatory Care Clerkship (Third Year)
Family Medicine Sub-Internship (Fourth Year)
Foundations of Medicine (First Year)
Fundamentals of Microbiology and Immunology (First Year)
Genetics and Health (First Year)
Geriatrics Clerkship (Fourth Year)
Health Outcomes and Policy 1 (First Year)
Hematology (Second Year)
Internal Medicine Clerkship (Third Year)
Introduction to Cancer Biology and Clinical Oncology (First Year)
Introduction to Clinical Medicine 1-4 (First and Second Year)
Introduction to Clinical Practice (First Year)
Pediatrics Clerkship (Third Year)
Psychiatry Clerkship (Third Year)
Research and Discovery Foundations in Medicine (First Year)
PRECEPTORSHIP SERIES
Daniel Rubin, MD, and Jason Konopack, MD, MPH, are co-course directors of this popular series, which is consistently rated as one of the highlights of the first two years. Students report a higher degree of confidence upon entering third-year clerkships after completing the course. The course continues to integrate a spectrum of topics related to community health in its lecture series. It also remains one of the best intensive opportunities for students to be exposed to positive family medicine role models early in their education.

REQUIRED FOURTH-YEAR MEDICINE ROTATION
Students can satisfy the fourth-year medicine requirement by spending four weeks on the family medicine inpatient service. All slots are filled early in the process. Students have responded well to the changes that were implemented to produce a more consistent and rigorous experience.

COURSE DIRECTORS AND STAFF
William Allen, JD, MDiv: Advanced Issues in Medical Ethics and Law; Financial, Business and Health Systems Aspects of Medicine; Religion, Culture and Medicine; and Research and Discovery Foundations in Medicine
Maria Bolanos: Academic Assistant for Family Medicine and Ambulatory Care Clerkship
David Feller, MD: Required Fourth-Year Medicine/Family Medicine Option
Jocelyn Gravlee, MD: Common and Advanced Procedures
Robert Hatch, MD, MPH: Family Medicine and Ambulatory Care Clerkship
Jason Konopack, MD, MPH: Preceptorship Series Co-Director
Ray Moseley, PhD: Financial, Business and Health Systems Aspects of Medicine
Daniel Rubin, MD: Preceptorship Series Co-Director

The George T. Harrell, M.D., Medical Education Building
EDUCATION ACTIVITIES

The faculty in the Program in Bioethics, Law and Medical Professionalism (BLMP) remain committed to promoting professional development, interdisciplinary collaboration and the patient’s best interest while adhering to the highest standards of human ethics. This commitment informs the program’s mission and activities, and the most prominent of these areas is education.

During the 2016–2017 fiscal year, the program faculty offered a dynamic, multidisciplinary curriculum. Most notably, faculty worked with medical students throughout all four years of their education, residents and fellows in several clinical departments, physician assistant students, and pharmacy students. BLMP faculty participated in the Putting Families First: Interdisciplinary Family Health course, which included dental, medical, nursing, physician assistant and veterinary students.

Medical student education occurred primarily within the Ethics, Law and Professionalism thread, which is a curriculum requirement interwoven throughout all four years of UF’s medical school. First- and second-year medical students attended ethics lectures in a learning studio or viewed recorded lectures on Canvas, and they applied that knowledge during activities in their Collaborative Learning Groups (CLGs). Similarly, these medical students also participated in team-based active learning sessions: one in which they addressed legal and ethical health policy issues, and the other in which they emulated the workings of a hospital-based ethics committee.

For third-year medical students, BLMP faculty led ethics case conferences throughout all rotations of the Pediatrics Clerkship, Psychiatry Clerkship and Family Medicine/Ambulatory Care Clerkship, the latter of which also included BLMP-facilitated professionalism workshops. In addition, fourth-year medical students interacted with program faculty during ethics case conferences in the Geriatrics Clerkship as well as various offerings of senior elective courses.

BLMP faculty led a department-wide quality improvement initiative known as the Advance Directives Training Project from June to September 2016. Aiming to educate providers, administrators and other clinic staff, program faculty traveled to the department’s clinics at Eastside, Haile Plantation, Hampton Oaks, Jonesville, Main Street and Old Town. These sessions included key topics such as advance directive terminology, the requirements for a validly executed advance directive, coding and billing information for advance care planning conversations between doctor and patient and tips for having conversations about advance directives.

In addition to these teaching activities, in which all program faculty participated, each faculty member also managed his or her own academic functions. During her second year as program director, Professor Lauren Solberg led the consolidation of the program curriculum and projects to track and review teaching effort. She taught Medical Ethics and Professionalism in The House of God for undergraduate honors students, and taught the Law and Ethics of Aging to graduate students at UF.
Professor Bill Allen taught research ethics for graduate students in the Advanced Postgraduate Program in Clinical Investigation, the College of Medicine Interdisciplinary Ph.D. program, the Genetics Institute and other programs throughout the Health Science Center. He served as course director for Principles of Pharmacy Law and Ethics, a first-year pharmacy student course, and Pharmacy Law and Ethics, taught to third-year College of Pharmacy students. He also directed Research and Discovery Foundations in Medicine, a required course for first-year medical students, and Advanced Issues in Medical Ethics and Law, History of Medicine, and Religion, Culture and Medicine, which are elective courses offered for fourth-year medical students.

Dr. Ray Moseley co-directed, along with Professor Allen, the popular fourth-year medical student elective course titled Financial, Business and Health Systems Aspects of Medicine. During the summer, he lectured high school students participating in BIODecide and the Student Science Training Program, which are hosted by the UF Center for Precollegiate Education and Training. He also led monthly ethics workshops for internal medicine residents.

ETHICS CONSULTATION

BLMP faculty members served on the UF Health Shands Hospital Ethics Committee during the 2016–2017 fiscal year. Faculty contributed to the revision of the advanced directives packet and the adoption of the new Social Worker Proxy Policy and Posthumous Gamete Retrieval Policy at Shands Hospital.

As part of the Ethics Committee, Drs. Allen, Moseley and Solberg each volunteered at least 7 days per month to be on call and perform ethics consultations for providers, patients and patient families at UF Health. The ethics consultation service is an invaluable resource for the hospital and outpatient clinics, providing both individual and team-based consultation for a variety of clinical and organizational issues, including decisional capacity considerations, informed consent inquiries, appointment of social worker proxies, execution of advance directives, facilitation of end-of-life care issues and resolution of plan-of-care conflicts.

RESIDENT EDUCATION PROGRAM

MISSION
The University of Florida Family Medicine Residency program trains residents to be competent, compassionate, ethical and professional physicians who provide comprehensive care to patients in a continuity of care model. Emphasis is placed on practical and direct patient care-based training in addition to didactic teaching that enhances the learning environment. The program is also committed to supporting each resident in his or her educational endeavors, whether the resident selects a clinical path or moves on to a fellowship, academic medicine or research. New initiatives in the program include an emphasis on high-quality care and patient safety, as well as enhanced educational and research opportunities. The mission is to instill in residents the love of lifelong learning by providing the framework and tools to ensure success in the long-term art and practice of medicine.

PROGRAM PROFILE
The University of Florida Family Medicine Residency program has made a significant impact on the care provided to patients in Alachua County and northern Florida since 1973. Over 295 graduates have entered the family physician workforce as providers of comprehensive medical care, academics, and providers of specialty care in geriatrics, emergency medicine, hospital-based medicine and sports medicine.

CURRENT ACTIVITIES AND HIGHLIGHTS FOR 2015-2016
The University of Florida Family Medicine Residency program has recognition as a Patient-Centered Medical Home and is now focusing on incorporating the Building Blocks of Primary Care into our practice. We provide team-based care and meet biweekly with all staff to continue clinic improvement activities. Clinic leadership is participating in the I3 Collaborative, which is a collaborative of primary care residency programs in the Carolinas, Georgia, Virginia, and now Florida with the goal to provide high-quality, evidence-based care focusing on the quadruple AIM.

We continue our ongoing efforts toward team-based quality improvement projects. The four clinic teams focused on PQRS measures this past year such as flu and pneumonia vaccine rates, colon cancer screening and tobacco screening. The program also conducts physicals for high school athletes, the Special Olympics, and Pop Warner Little Scholars and provides educational support for local schools in health, tobacco avoidance, and lifestyle education.
Dr. Danielle Nelson will also be offering an area of concentration focused on underserved and global health care for interested residents. This area of concentration will be in addition to the ones provided in sports medicine and women’s health.

The program has continued to encourage scholarly activity with residents presenting at national sports medicine conferences as well as the annual Society of Teachers of Family Medicine (STFM) meeting. For the upcoming year, residents will have protected time monthly to work on their scholarly projects and Dr. Chip Mainous will be assisting the residents as well. A new research elective will also be offered for those residents who would like even more time to devote to scholarly activities.

As new interns were welcomed, the class of 2017 graduated. Half of our graduates stayed in Florida with two joining our department! The 2017 graduates continued the trend of 100 percent board certification, which marks five consecutive years of 100 percent pass rate. Additionally, the In-Training Exam scores improved and exceeded national means.
RESIDENT EDUCATION PROGRAM

Residency program director: Maribeth Porter, MD

Core faculty: Tanya Anim, MD; David Feller, MD; Karen Hall, MD; John Malaty, MD; Charlie Michaudet, MD, CAQSM; George Samraj, MD; Danielle Nelson, MD, MPH

Faculty: Carmen Bray, MD; Philippa Bright, MD; Peter Carek, MD, MS, CAQSM; Ku-Lang Chang, MD; Run Gan, MD; Helen Hagan, MD; Lucia Hansen, MD; Robert Hatch, MD, MPH; Mitul Jones, MD; Jason Konopack, MD, MPH; Michael McTiernan, MD; Elvira Mercado, MD; Maribeth Porter, MD, MSCR; David Quillen, MD; Siegfried Schmidt, MD, PhD; Michael Ware, MD; John Gums, PharmD; Steven Smith, PharmD; Elizabeth DiCarlo, ARNP; Lesa Gilbert, ARNP; Silvia Hunkins, ARNP

Education coordinator: Tina Engstrom

Residency/fellowship program assistant: Kimberly Zinkel

BEHAVIORAL MEDICINE
The Behavioral Medicine faculty and staff participate in projects and activities involving all significant missions of the department and the UF College of Medicine, including teaching and administrative activities, direct patient care services and consultation and research and scholarly activities.

Regarding educational programs, the Behavioral Medicine faculty undertake the development and implementation of medical, educational programs for family medicine residents, medical students, community practicing physicians and academic physicians. One primary focus of the program is on curricula designed to educate medical trainees in various aspects of the biopsychosocial model of care, including home visits and office-based lifestyle modification (e.g., smoking cessation, healthy exercise patterns). Other areas of particular emphasis include 360-degree evaluation of resident performance, including physician-patient communication skills and professionalism. The Behavioral Medicine program is an integral part of the clinical mission of the department. The faculty and staff of the program provide psychotherapy and evaluation services to patients referred by the physician faculty of the department and by the family medicine residents. In addition, the Behavioral Medicine faculty often combine clinical care and resident educational activities.

MEDICAL STUDENT CURRICULUM
The Behavioral Medicine faculty are involved in teaching activities for medical students during their first, second, third and fourth years of training, including:

- Co-leading small groups during the “Essentials of Patient Care” and “Interdisciplinary Family Health” sections of the medical school curriculum.
- Workshops and lectures on behavioral medicine topics during third and fourth year clerkships.
- Ten to 12 lectures on human behavior and mental health presented as part of the Residency program didactic sessions for third-year Family Medicine and Ambulatory Care clerkship and fourth year required Medicine rotation students.
- Behavioral Medicine program faculty consult and precept third- and fourth-year medical students regarding the social agency needs of patients, the assessment of psychological disorders or family conflict.

CURRENT EDUCATIONAL ACTIVITIES - RESIDENTS
The Behavioral Medicine program’s educational activities for residents include Orientation Program, Balint and Support Groups, Faculty Advisor Roles, Resident Evaluation Processes, Third-Year Behavioral Medicine Rotation and Didactic Series.

Faculty: David Feller, MD; Michael Ware, MD; Jenny Land, PhD; Laura Perry, PhD, LMHC; Tom Ward, LCSW

QUALITY AND PATIENT SAFETY

OVERVIEW
The Department of Community Health and Family Medicine continually evaluates current quality indicators and sets new goals as we strive to provide the best patient care possible. Department-wide quality improvement projects are focusing on chronic conditions such as diabetes mellitus and preventive services such as screening for colorectal cancer. While these initiatives are department-wide, the dedication of the faculty and staff at each of our clinics is the driving force behind offering our patients the very best care available and the improvements we have experienced in these areas.

PATIENT-CENTERED MEDICAL HOME RECOGNITION
All clinics in our department are recognized by the National Committee for Quality Assurance, or NCQA, as Level 2 Patient-Centered Medical Homes, or PCMH. Obtaining PCMH recognition on any level requires a significant amount of effort and expertise, with much dedication and coordinated teamwork, to transform clinic processes and practices from one of the traditional doctor-centered medical practice to one that is truly patient-centered. PCMH models have been shown to improve patient health outcomes and professional physician satisfaction.

HOSPITAL READMISSION REDUCTION
The Family Medicine inpatient service continues to work towards a reduction in their hospital readmission rates. A readmission registry has been created to keep track of patients who were discharged from family medicine practices at UF Health. Using data from the registry, weekly quality improvement rounds are conducted with the inpatient team, and readmission risk factors for specific patients are reviewed and addressed. This weekly retrospective readmission root-cause analysis that highlights high-risk patients, led by the inpatient team (residents, attending, case manager), began December 1, 2014, as part of the Resident Safety and Quality Rounds.

PHYSICIAN QUALITY REPORTING SYSTEM (PQRS)
Our department is actively seeking to improve selected measures associated with the Physician Quality Reporting System (PQRS). Patients with diabetes mellitus with a Hgb A1c >9, nephropathy screening in patients with diabetes mellitus, rates of influenza and pneumococcal vaccination, blood pressure control in patients with hypertension and colorectal cancer screening rates are included.

FAMILY MEDICINE RESIDENCY PROGRAM
In addition to the above PQRS measures and associated projects, our residency program has teams of attending physicians and residents addressing these and other specific quality of care measures at UF Health Family Medicine – Main. The projects improve the care of our patients and provide residents valuable experience in the implementation of the principles and tools of quality improvement. The quality indicators being addressed by the residency program include colorectal cancer screening, pneumococcal vaccination, tobacco cessation and influenza vaccination.
Rural Health

ORGANIZATION AND STRUCTURE
UF Health Family Medicine – Old Town continues to see growth in its practice and proves to be a vital role in the Medical Student Education program. The faculty who participated in the program this past year include Shenary Cotter, MD; Grant Harrell, MD, Medical Director; Robert Hatch, MD, MPH; Jason Konopack, MD, MPH; Richard Rathe, MD; and Greg Westwood, MD, Ph.D. Ideanna Acosta, PA-C and Gary Rexroat, PA-C were the two physician assistants at the Old Town clinic. Dr. Sando, PharmD, BCACP, BC-ADM continues to provide patient care through managing Old Town’s Coumadin clinic, Smoking Cessation clinic and Diabetic Education program.

OBJECTIVES
• To develop and maintain a rural clinical teaching network capable of full implementation of a coordinated departmental curriculum.
• To provide medical students with an opportunity to learn about health care issues specific to an under-served rural community.
• To improve the quality of and access to health care for the rural communities of north Florida.
• To offer cost-effective, comprehensive, longitudinal health care to rural communities in Florida.
• To offer health maintenance and disease prevention programs by means of community education and as a component of clinical practice.
• To develop the rural teaching sites as referral bases for the Family Medicine Residency program and Shands subspecialty care.
• To collaborate with the University of Florida AHEC program including hosting a student from the Rural Scholars program during the summer term.

Equal Access

ABOUT
The Equal Access Clinic was established by a group of dedicated medical students in 1988. The clinic opened its doors in 1992 at a local Salvation Army facility and fortunately was later provided with free access to a University of Florida Family Practice Medical Group facility. David Feller, MD serves as faculty advisor. Today, the organization is one of the largest and most comprehensive student-run free healthcare clinics in the nation. The clinic provides free healthcare to the medically underserved in Alachua County and its surrounding counties. A diverse group of undergraduate and professional students from the University of Florida partakes in volunteer activities at the clinic. The majority of student support is derived from the Colleges of Medicine, Dentistry, Pharmacy and Public Health and Health Professionals.

Over the past year, we have continued to focus on our key partnerships and developing new ones in the community to expand our referral base and the service that we can offer our patients. We have combined our Physical and Occupational Therapy nights to increase our volume of patients tremendously. Also, our Physical Therapy division has added a neuro physical therapy brand to provide more specialized care directly to stroke patients who have suffered a spinal cord or brain injury. We are continually expanding and identifying our patient population’s needs to tailor our offerings to the community. To address these needs, we have developed our pharmacy services and are establishing a partnership with GRACE Marketplace to help facilitate the distribution of medication.
Since opening our dental clinic in February 2016, the demand has been steadily increasing. We have been able to provide over 250 unique procedures and currently have approximately 300 individuals on our waiting list. Our Eastside clinic has created a method to track patient wait times without hindering our clinic operations. With this new approach, we have experienced a significant reduction in patient wait times at this clinic and have recently rolled this initiative out to other locations. Our Free Therapy Night, which provides mental health services, also experienced a dramatic increase in patients seen from 68 to 186.

In addition, the administrative staff from the Department of Community Health and Family Medicine provided much needed and appreciated the support of the Equal Access Clinic. Faculty from the departments of Family Medicine, Internal Medicine, and Emergency Medicine provided the supervision to assess and treat patients at each clinic site. Coordination with medical faculty across these departments and within the Physician’s Assistant education program has ensured staffing of our clinics.

GOALS

• **Long-term sustainability**: Continued focus on our ability to provide services for the long term with specific interest in establishing a long-term funding source.
• **Physician recruitment**: Continue to develop partnerships with different provider groups to ensure full clinic staffing.
• **Dental clinic**: Expand capacity for preventive dental care and work through our patient waiting list.
• **Community Partnerships**: Continue our current relationships with community partners and expand these partnerships to include social services.
• **Marketing efforts**: Implement new marketing initiatives in the community to increase awareness of our clinics and health initiatives.
• **Quality improvement and research**: Continue to improve clinics through critical analysis of processes and data driven projects. We aim to develop a new protocol to minimize time for officer data entry and apply data from wait time tracking to diminish wait times and transition times for patients at all of our clinics.
• **Lab resource efficiency**: Continue to ensure maximum cost efficiency and utilization of our lab resources.
• **Pharmacy**: While identifying the needs of our patient population, we have increased our pharmacy offerings to include a Tobacco Cessation Program and focusing on medication reconciliation, point-of-care testing, referral services, and exit counseling.
• **Long-term contraception**: Increase our ability to provide long-acting reversible contraception.
• **Spanish services**: Improve our ability to serve Spanish-speaking patients by having all materials available in Spanish, while educating our volunteers on the translation services that are available.
• **Recommended screenings**: Our capacity to connect patients with all recommended health screenings, such as colonoscopies, has waxed and waned over the years. Our goal is to ensure that we are maximizing the community resources available to get these for our patients.
• **Student involvement**: Continue to foster interest from undergraduate and professional students to participate in clinic operations.

SERVICE HOURS

Annual Volunteering at EAC Medical Clinics

- Physician ............................................................... 912 hours
- Residents ............................................................... 468 hours
- Medical Students (clinical volunteering) .................. 1,413 hours
- Medical Students (administrative) ......................... 128 hours
- Other Health Professional Students ....................... 4,458 hours
- Undergraduate Students ....................................... 403 hours
- Family Medicine Staff, Bus Driver, Social Worker .... 528 hours

Total hours of service for all volunteers ........................... 8,310 hours

STATE OF THE DEPARTMENT

EVENT
On Friday, September 29, 2017, the annual State of the Department address was conducted for Community Health and Family Medicine faculty and staff. Presentations provided an overview of the activities and accomplishments of our department and faculty members. In particular, our medical and program directors presented accomplishments of their clinics and programs.

PATIENT CARE
- Addressed several quality indicators, including Hgb A1dc poor control, nephropathy screening, influenza/pneumococcal vaccination, high blood pressure control and colorectal cancer screening
- Established interventions to improve patient satisfaction and decrease hospital readmission rates
- Increased patient visits and access

MEDICAL STUDENT EDUCATION
- College of Medicine Leadership Positions
  - Director of Preceptorships and Third-Year Clerkship
  - Faculty advisor for the Family Medicine Interest Group
- Courses: Preceptor Series, Family Medicine/Ambulatory Care Clerkship and 4th-Year Sub Internship
- Highly rated clinical faculty as effective lecturers facilitators and discussion group leaders

RESIDENT EDUCATION
- Matched nine first-year resident positions
- 100% pass rate on ABFM Certification Examination
- Team-based care addressing population health as well as care of individual patients
- Expanded opportunities for research and quality improvement
- Improved resident survey results
- Continued outstanding teaching evaluations
- New didactic format using problem based learning, peer teaching and review questions

FELLOWSHIP
- Primary Care Sports Medicine Fellowship (in partnership with the Department of Emergency Medicine)
- Worked closely with the University Athletic Association to provide care to UF student-athletes
- 100% pass rate on the ABFM Certificate of Added Qualification (CAQ) examination

BIOETHICS, LAW & MEDICAL PROFESSIONALISM PROGRAM
- Involved in education of medical students, undergraduate students, graduate students, residents, fellows and faculty
- Provided over 50 inpatient and outpatient ethics consults
- Implemented Advanced Directive Training Project

FACULTY DEVELOPMENT
- Instituted a faculty development series with emphasis on improving scholarship and teaching skills
- Departmental Grand Rounds addressing faculty related matters; additional conferences presenting clinical topics

SCHOLARSHIP
- Numerous publications in peer-reviewed medical journals
- Presented during meetings of local, state, regional, national, and international medical organizations
Teamwork is the ability to work together toward a common vision.

It is the fuel that allows common people to attain uncommon results.

ANDREW CARNEGIE
Our department faculty and staff continue to give their time and talent to serve others. Listed below are the administrative service rolls and committees they serve at an international, national, regional and local level.

**FACULTY**

**Ideanna Acosta, PA-C**
- **National**
  - Member, American Academy of Physicians Assistant
- **Regional/State**
  - Member, Florida Academy of Physicians Assistant

**William L. Allen, JD, MDiv**
- **National**
  - Editorial Board Member, Genetic Testing and Molecular Biomarkers
  - Member, Academy for Professionalism in Healthcare
  - Member, American Society for Bioethics and Humanities
- **Regional/State**
  - Florida CARES Reviewer
  - Member, Florida Bioethics Network
- **Local/University**
  - Admissions Committee, College of Medicine, University of Florida
  - Board of Directors, Center for Government Responsibility, University of Florida Levin College of Law
  - Ethics Consultation Service, UF Health Shands Hospital
  - Member, UF Health Shands Hospital Ethics Committee
  - University of Florida Genetics Institute Executive Committee

**Tanya Anim, MD**
- **National**
  - Member, Society of Teachers of Family Medicine
  - Member, American Academy of Family Physicians
  - Member, American Medical Association
- **Regional/State**
  - Member, Florida Academy of Family Physicians
- **Local/University**
  - UF College of Medicine Faculty Council
  - UF College of Medicine Graduate Medical Education Committee

**Ronald Berry, MD**
- **Local/University**
  - Chair, University Sick Leave Pool Committee
  - Volunteer Physician, Equal Access Clinic, College of Medicine, University of Florida

**Charles E. Byrd, PhD, MS**
- **National**
  - Member, American Association for Health, PE, Recreation and Dance
  - Member, American Evaluation Association
  - Member, American Psychological Association
  - Elected member, Society of Behavioral Medicine
- **Regional/State**
  - Active Member, Medical Reserve Corps, Florida Unit (SERVFL)
  - Executive Board Member, Florida Afterschool Network (FAN), C.S. Mott Foundation
  - Member & Vice Chair, 4-H Youth Development Advisory Council, UF 4-H Program, IFAS
Peter J. Carek, MD, MS, CAQSM

| **John Malaty, MD**         | • Promoted to Associate Professor  
• Appointed as the Director of the Resident as Teacher Program, College of Medicine  
• Appointed as the Medical Director of UF Health Family Medicine - Main  
• Appointed to the National Board of Medical Examiners (NBME) - USMLE Ambulatory Care Test Material Development Committee (TMDC) - 2 year term  
• Appointed as Director of the Resident as Teacher Program, College of Medicine |
| **Michael J. McTiernan, MD** | • Listed in The Best Doctor’s in America - 2016-2017                        |
| **David Quillen, MD**       | • Elected to chair of the Faculty Senate for the University of Florida       |
GRANTS

*AbbVie*
A Randomized Multicountry, Multicenter Double-blind Parallel Placebo-controlled Study of the Effects of Atrasentan on Renal Outcomes in Subjects with Type 2 Diabetes and Nephropathy
The purpose of this study is to evaluate whether or not Atrasentan is effective in delaying the time to serum creatinine doubling or the onset of End Stage Renal Disease in subjects with Type 2 Diabetes Mellitus and Kidney Disease. In addition, this study will compare Atrasentan with a placebo to see if taking Atrasentan is better than taking a placebo.

- CHFM primary investigator: Karen Hall, MD
- CHFM total grant: $36,249.96

*American Academy of Family Physicians (AAFP)*
PeRson EmPowered Asthma Relief (PREPARE): Patient Empowered Strategy to Reduce Asthma
Conduct a pragmatic real-life study in a population of African American and Hispanic/Latino adults disproportionately impacted by asthma comparing the intervention (PARTICS-patient activated rescue therapy with ICS) to usual care. In the intervention group, a patient-empowered strategy using ICS triggered by patient use of short-acting beta-agonist (SABA) reliever for quick symptom relief (“rescue use”) will reduce asthma exacerbations and improve other outcomes important to patients and the health care system. The two specific aims of this study are: 1) to assess whether a Patient Activated, Reliever-Triggered Inhaled CorticoSteroid (PARTICS) strategy can reduce asthma morbidity in this population with the primary outcome of decreasing asthma and additional negative health outcomes important to patients such as days lost from work or school, asthma control, and asthma related quality of life; and 2) to examine whether the effectiveness of a Patient Activated, Reliever-Triggered ICS (PARTICS) strategy differs between African American or Hispanic/Latino adults or by smoking status.

- CHFM primary investigator: Ku-Lang Chang, MD
- CHFM total grant: $7,459.00

*American Medical Society for Sports Medicine Foundation Research Grant (AMSSM)*
Cardiovascular Screening with History, Physical, ECG and Echo in College Athletes. 5-Year Results from Two Division I Institutions
The purpose of this study is to investigate the results of comprehensive cardiac screening done at the University of Florida and the University of Georgia from 2011 to 2016. The primary objective of the study is to determine the sensitivity, specificity, positive and negative predictive value of history, physical, ECG and echo for cardiovascular screening for detection of cardiovascular conditions. Secondary objectives are: 1) to determine high risk groups stratified by sport, gender and race/ethnicity, 2) to report echocardiographic norms in college athletes, and 3) To report any complications or morbidity caused by secondary investigations or treatments.

- CHFM primary investigator: Katherine M. Edenfield, MD, CAQSM
- CHFM total grant: $10,448.00

*Banyan Biomarkers*
GATR: Gator Athletics TBI Research
This prospective and observational single-center trial is being conducted with a population of subjects over the age of 18 participating in Men’s Football, Women’s Soccer, and Women’s Lacrosse at the University of Florida (UF), Gainesville. Subjects are being followed for the duration of their collegiate athletic career for the presence or absence of trauma to the head (concussion). In addition to the standard clinical measures that are routinely used in accordance with the UF Athletic Association Concussion Management Policy, subjects are being recruited to participate in research directed procedures involving blood-based biomarkers, and head impact sensor technology. Analysis is being conducted in concert with MRI neuroimaging data that was collected alongside this effort under a separate protocol recruiting and enrolling subjects from the same participating sports teams.

- CHFM primary investigator: James R. Clugston, MD, CAQSM
- CHFM total grant: $322,035.00
**Centers for Disease Control and Prevention**

**CDC Center on Transfusions and Transfusion-Related Complications among Hemoglobinopathy Patients**
The goal of this project is to develop and implement a clinical decision support system into the electronic health record for sickle cell disease and other hemoglobinopathies using expertise on treatment and complications of hemoglobinopathies. Using appropriate algorithms in the clinical decision support system, the implementation of this system within the electronic medical record would allow for more focused and appropriate care delivered in the Department of Community Health and Family Medicine with trigger prompts and education for the primary care physicians to best evaluate appropriate management and quality of care of patients with sickle cell disease and other hemoglobinopathies.

- CHFM investigators: Arch Mainous, III, PhD and Peter Carek, MD, MS, CAQSM
- CHFM total grant: $17,773.50

**Department of Defense (DoD) / National Collegiate Athletic Association (NCAA)**

**DoD/NCAA Grand Alliance: Concussion Assessment, Research and Education (CARE) Consortium**
A prospective, longitudinal, multi-center, multi-sport investigation that delineates the natural history of concussion in both men and women by incorporating a multi-dimensional assessment of standardized clinical measures of post-concussive symptomatology, performance-based testing (cognitive function, postural stability), and psychological health.

- CHFM primary investigator: James R. Clugston, MD, CAQSM
- CHFM total grant: $436,700.00

**Florida Department of Health (FL DOH)**

**AHEC Tobacco Training & Cessation Program**

- CHFM primary investigator: Peter Carek, MD, MS, CAQSM
- CHFM total grant: $2,150.00

**Florida Department of Health (FL DOH)**

**OneFlorida Cancer Control Network**
Establish a statewide network that will quickly bring the benefits of research in labs and other clinical settings to more than nine million patients in all of Florida’s 67 counties. The network will initially create tobacco cessation programs in doctors’ offices around the state in a coordinated effort to prevent cancers and other cardiovascular diseases related to tobacco use.

- CHFM primary investigator: Peter Carek, MD, MS, CAQSM
- CHFM total grant: $102,531.00

**National Institutes of Health (NIH)**

**An Interactive Patient-Centered Consent for Use in Research with Electronic Medical Records**
The goal of this project is to develop and evaluate a novel, electronic informed consent application for research involving electronic health record (EHR) data. In response to NIH RFA-OD-15-002, this study addresses research using clinical records and data, including the issues of the appropriate content and duration of informed consent and patient preferences about research use of clinical information. First, this study will design an electronic consent application intended to improve patients’ satisfaction with and understanding of consent for research using their EHR data. The electronic application will provide interactive functionality that creates a virtual, patient-centered discussion with patients about research that uses EHR data.

- CHFM investigators: Ray Moseley, PhD and Arch Mainous, III, PhD
- CHFM total grant: $534,877.23
**National Institutes of Health (NIH)**

**Genomic Medicine Implementation: The Personalized Medicine Program**
CYP2D6 poor metabolizers are at increased risk for toxicity with TCA, whereas ultra-rapid metabolizers are at increased risk for treatment failure. We hypothesized that 1) CYP2D6 genotyping will lead to better pain management and control; 2) having CYP2D6 genotype results is useful to inform prescribing decisions for pain medication from the physician’s perspective; and 3) genotype results beyond CYP2D6 would be informative for individualizing use of multiple medicines prescribed patients in the Family Medicine Clinic.

- CHFM primary investigator: Siegfried Schmidt, MD, PhD
- CHFM total grant: $72,091.23

**National Institutes of Health (NIH)**

**MEDication Focused Outpatient Care for Underutilization of Secondary Prevention (MEDFOCUS)**
To conduct a multi-center, cluster-randomized implementation study utilizing a web-based, centralized cardiovascular risk service, or CVRS, to determine the extent to which the CVRS model will be adopted and implemented in medical offices with large geographic, racial and ethnic diversity. Subjects enrolled at UF will be in the control group, receiving standard care, rather than the CVRS intervention.

- CHFM primary investigator: John G. Gums, PharmD
- CHFM total grant: $98,488.00

**National Institutes of Health (NIH) - National Cancer Institute (NCI)**

**A Patient-centered Intervention using Virtual Technology to Reduce Colorectal Cancer Disparities in Primary Care**
A study testing the efficacy of using virtual technology to increase colorectal cancer screening among rural and minority patients. The project explores the impact of delivering personalized messages through a “virtual human” to increase CRC screening rates among minority and rural populations. It will include: focus groups and interviews segmented by geography, gender and ethnic background to develop and pilot test the use of a virtual human as a delivery mechanism for CRC screening information, a patient-randomized efficacy evaluation of the pilot test, and a personalized booster message to examine the efficacy of the intervention for promoting repeat fecal immunochemical test (FIT) screening, a widely used test for colorectal cancer.

- CHFM primary investigator: Peter Carek, MD, MS, CAQSM
- CHFM total grant: $8,434.78

**National Science Foundation (NSF)**

**SaTC-EDU: EAGER: Education Initiative TECH MeD: Transdisciplinary Education for Critical Hacks of Medical Devices**
By employing a range of educational strategies, the TECH MeD (Transdisciplinary Education for Critical Hacks of Medical Devices) initiative seeks to broaden the discourse regarding the cybersecurity implications of remotely accessible, implantable medical devices beyond the narrow confines of computer science. Our goal is to educate a broad audience, including undergraduate and graduate-level students from various disciplines, healthcare professionals, patients with implantable medical devices, and the general public about the ethical, legal, social, and technical implications of these remotely accessible technologies.

Pharmacokinetic and Pharmacodynamic (PK-PD) Studies of Cardiovascular Drugs
The goal of this project is to provide pharmacokinetic and pharmacodynamic data to help the FDA better understand which factors should be considered in bioequivalence studies of metoprolol ER products. We will address our hypotheses with the following specific aims: 1) compare the pharmacokinetics and cardiovascular effects of brand name and generic metoprolol ER products in patients with hypertension; 2) determine the impact of gastric pH variation on the concentration-response relationship with different metoprolol ER products; and 3) examine the effect of CYP2D6 genotype on the pharmacokinetics of different metoprolol ER products.
